Closed-end funds are traded on the secondary market through one of the stock exchanges. A Fund’s investment return and principal value will fluctuate so that an investor’s shares may be worth more or less than the original cost. Shares of closed-end funds may trade above (a premium) or below (a discount) the net asset value (NAV) of the fund’s portfolio. There is no assurance that a Fund will achieve its investment objective. Past performance does not guarantee future results.
