Press Release

**ABRDN ASIA-PACIFIC INCOME FUND VCC
ANNOUNCES 2024 VOLUNTARY CASH REDEMPTION**

(Toronto, March 8, 2024) – [abr dn Asia-Pacific Income Investment Fund VCC \(TSX:FAP\) \(UEN: T21VC0235H\) \(the “Company”\)](#), a closed-end investment company trading on the Toronto Stock Exchange, announced today announced the results of the 2024 voluntary cash redemption.

Requests for redemption of approximately 18,390,917 ordinary shares of the Fund (the “Shares”), representing approximately 44.7% of the current issued and outstanding Shares, have been submitted by shareholders. As previously announced, the VCC Constitution of the Company limits the annual redemption to 10% of the issued and outstanding Shares on the final day on which to submit Shares for redemption, which was March 7, 2024. Since the total number of Shares submitted for redemption exceeded the number of Shares the Company is permitted to redeem, all redemptions of Shares will be subject to proration (at a ratio of approximately 0.223, subject to final review) in accordance with terms of the 2024 voluntary cash redemption. Payment of the redemption proceeds will be made on or before April 19, 2024 at a redemption price equal to price equal to 100% of the Average Net Asset Value (NAV) of the three trading days preceding the March 28, 2024 redemption date, less direct costs. Shares that have been submitted for redemption remain eligible for the March 2024 distribution.

Important Information

Past performance is no guarantee of future results. Investment returns and principal will fluctuate and shares, when sold, may be worth more or less than the original cost. Current performance may be lower or higher than the performance data quoted. NAV returned data includes investment management fees, custodial charges, bank loan expenses and administrative fees (such as Director and legal fees) and assumes the reinvestment of all distributions. The Company is subject to investment risk, including the possible loss of principal. Total return based on net asset value reflects changes in the Company’s net asset value during each period. Total return based on market price reflects changes in market value.
