Composite inception: 01-Jan-13

N.B. Where a calendar year return is shown the annualised standard deviation presented is of 36 monthly returns to the calendar year end.

### Composite Disclosures

As of: 31-Mar-24

Global Emerging Markets Equity All Cap Core

### Composite Description

## Composite Returns - Key Periods

---

### Composite Disclosures

As of: 31-Mar-24

#### Global Emerging Markets Equity All Cap Core

The composite includes funds that mainly invest in equities with a style agnostic approach to stock selection, looking for compelling free cash flow characteristics, within a risk aware framework and across the market cap spectrum. The majority of the composite fund's holdings pay a dividend. A small proportion of each fund (max 10%) may also be invested in fixed interest securities. The funds hold equity type investments of companies on an emerging market stock exchange or which, in the opinion of the ACD, carry on a substantial part of their operations in emerging market countries, where the outperformance target is 2% p.a.

### Primary Index Description

MSCI Emerging Markets.

### Representative Fee Description

The Composite Representative Fee is 0.9%. A pooled fund following this strategy has a model highest institutional investment management fee of 0.9%. A model fee is used to provide indication of the highest fee to be charged to an institutional investor where no institutional fee is available. A segregated account following this strategy has a highest investment management fee of 0.6%. The fee prior to 1st Nov 2023 was 0.75%.

### Derivative Instruments

Derivatives may be used for efficient portfolio management purposes.

### Definition of the firm

## Composite Returns - Key Periods

---

### Composite Disclosures

As of: 31-Mar-24

#### Global Emerging Markets Equity All Cap Core

abrdn (or "the Firm") is defined as all portfolios managed globally by the asset management entities of abrdn plc excluding Private Markets, abrdn Capital and Lloyds Syndicate portfolios. The Firm inception date is 1st January 2018; and includes track records that either were, or were part of, legacy compliant firms, some of which are compliant from earlier dates: Aberdeen Asset Management plc (compliant from 1st January 1996); Standard Life Investments (compliant from 1st January 1996); and Aberdeen Property (compliant from 1st January 2013). Composite returns, start date and composite and firm assets reported prior to acquisitions represent those of the legacy firm which managed the product at the time. Changes in the firm organisation, investment style or personnel have not caused alterations of historical composite performance. Compliant Presentations produced during the period between the annual period end and the date of release to the market of abrdn's financial results will not contain the Firm assets or % of Firm assets for that annual period end. The total Firm assets is material non-public information before the official results release date and to release it in GIPS Compliant Presentations would be against the law: and where laws and/or regulations conflict with the GIPS standards, firms are required to comply with the laws and regulations and make full disclosure of the conflict in the compliant presentation. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organisation, nor does it warrant the accuracy or quality of the content contained herein. abrdn claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. abrdn has been independently verified for the periods to 31st December 2022. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. The effective date of compliance is 1st January 1996. The inception date of the composite is 31/12/2012 and it was created on 01/07/2015. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Available on request are a list of composite descriptions and details of Limited and Broad distribution pooled funds. There are no minimum asset levels set below which portfolios are not included in a composite. All returns are presented on an all-inclusive basis and as such all capital gains interest income and withholding taxes have been taken into account in market valuations and returns. All indices are on a gross of tax basis apart from FTSE UK indices which are net of Withholding Tax. There are no Non-Fee-Paying portfolios included in any composite. The Daily True Time Weighted Rate of Return methodology has been used from 2001 apart from unithised Cash, Property, GARS and Myfolio products where NAV performance is used. Prior to this NAV performance was used for all products. The dispersion of annual returns is measured by the range of the portfolio returns represented within the composite for the full period. Dispersion is not calculated for composites with less than five accounts for the whole period. Additional information on policies for calculating and reporting returns is available on request. Gross returns are presented before management, performance, custodial and other fees but after all trading expenses. Net returns are calculated after the deduction of the highest portfolio investment management fee. Risk Statistics are presented gross of fees. Past performance is not an indication of future results.

### Footnote - Name & Description

In March 2024, the Composite Name was updated from Global Emerging Markets Equity Income to Global Emerging Markets Equity All Cap Core. The Composite Description was also updated from "The composite includes funds that invest in mainly higher yielding equities and equity type investments of companies on an emerging market stock exchange or which, in the opinion of the ACD, carry on a substantial part of their operations in emerging market countries. A proportion of the Fund may also be invested in fixed interest securities to supplement the income of the fund" to "The composite includes funds that mainly invest in equities with a style agnostic approach to stock selection, looking for compelling free cash flow characteristics, within a risk aware framework and across the market cap spectrum. The majority of the composite fund's holdings pay a dividend. A small proportion of each fund (max 10%) may also be invested in fixed interest securities. The funds hold equity type investments of companies on an emerging market stock exchange or which, in the opinion of the ACD, carry on a substantial part of their operations in emerging market countries, where the outperformance target is 2% p.a."

Composite inception: 01-Jan-13

Measures are annualised for periods greater than 12 months.

Arithmetic calculations are used for the risk statistics in this report.

Risk statistics are only shown when composite is old enough to have 36 monthly returns
