MyFolio Multi-Manager Funds

April 2024

For advised clients only.

The range of five MyFolio Multi-Manager Funds aim to help you achieve your long-term investment goals with confidence. To do this, each fund includes a variety of different investments. All you need to do is select the right option for you with your financial adviser.

Why should I invest in the MyFolio Multi-Manager Funds?

We designed the MyFolio Multi-Manager Funds to make investing quick and easy. You simply decide how much risk you are comfortable taking and select the appropriate fund. We then do the rest to manage it in line with your chosen level of risk.

Our experts will:

Decide what to invest in and when

Actively manage the fund to try and produce the best possible return

Regularly check the fund is still in line with your chosen risk level

You can be assured that your investment is being managed by experts to help support your long-term investment goals.

We do recommend that you regularly review your chosen fund to make sure it is still right for you and your appetite for risk hasn't changed. As with any investment the value can go down as well as up, and may be worth less than you paid in.

Which MyFolio Multi-Manager Fund is right for me?

Deciding which fund is right for you is very straightforward. Simply decide how much risk you are willing to take.

Investor guide

What does MyFolio Multi-Manager invest in?

Our experts invest in what we believe to be some of the best available funds from leading asset managers across the globe, combining defensive and growth asset classes. Defensive assets are usually seen as less risky, including funds that typically hold investments such as cash and bonds. Meanwhile, growth assets are usually seen as more risky, including funds that typically hold investments such as company shares and property. By

combining different types of investment, we believe we can achieve the best possible return for each risk level.

As you move up the risk levels, you would typically expect to see a higher proportion invested in growth assets and less in defensive assets.

Please note that the number contained in the fund name is not related to the synthetic risk and reward indicator (SRRI) contained in the Key Investor Information document.

Who runs the MyFolio Multi-Manager Funds?

The responsibility for the MyFolio Funds lies across experienced portfolio managers, who are all part of the Client Investment Solutions Team.

The Multi-Manager Funds are managed by Katie Trowsdale and Robert Bowie.

abrnn is a leading global asset manager, managing assets worth a total of £367 bn (as at 31 December 2023).
